Profile

Currently Student at PUCIT. Pursuing degree of BS-IT with a passion for exploring the dynamic world of technology and its applications. Enthusiastic about software development, coding, and problem-solving. Constantly seeking to expand my knowledge and skillset. Eager to connect with fellow students, mentors, and professionals in the field to exchange ideas and insights. Let's collaborate and learn together! Committed to personal and professional growth, I am actively involved in different societies and clubs of my university that allow me to contribute to the tech community and make a positive impact.
